INNOVATION THAT BRINGS WORKERS AT HEIGHT HOME SAFELY.

Capital Safety is a global company solely dedicated to fall protection and rescue. Our focus is clear. It continually drives us to design and manufacture safer gear that workers want to wear.

Innovation means understanding the industries we serve. We listen to the workers in the field, employ the most engineers, customize solutions, register more new patents and introduce more products. To date, Capital Safety has the best quality and largest breadth of products in the industry.

But we’re more than a product company. We take an innovative approach in bringing our products to the field. We have created international partnerships and a vast network of certified installers and service centers. We offer on-site and in-house training.

And we’re ISO 9001-2000 certified for customer service, as well as manufacturing and engineering.

Capital Safety is one of the world’s leading manufacturers in fall protection and rescue equipment, with decades of experience and a legacy of innovation. Look for complete solutions in our extensive line of DBI-SALA® and Protecta® products.

THE ULTIMATE IN FALL PROTECTION

DELTA® HARNESSES ARE AVAILABLE IN UNIVERSAL SIZES

No matter if your Delta™ is XS or 3XL, it adds to your tool carrying capabilities and your job-site flexibility.
DELTA™ HARNESS

INTRODUCING THE NEW DELTA™ HARNESSES: INNOVATIVE, FULL BODY SUPPORT FOR MORE THAN TWO DECADES.

There’s a lot of industry buzz around the new, improved Delta™ harnesses. They combine a set of “industry-first” advancements, with popular features that have made Delta™ the workhorse of the industry. Today’s Delta™ represents the culmination of more than twenty years of design, research, manufacturing know-how and on-the-job performance.

DURABLE

The new Delta™ harnesses are as tough as the guys who wear them. They feature coated, corrosion-resistant hardware. All Delta™ webbing is water-repellent and abrasion-resistant. Labels are protected by secure Velcro® covers. And Delta™ proves its workhorse standing with a 420 lb. carrying capacity.

CONVENIENT

A patented triangular design gives Delta™ harnesses a shape of their own, so you can don them quickly and easily. Revolver™ torso adjusters make adjustments fast and secure. Spring-loaded, stand-up dorsal D-rings help make connections fast, easy and safe. Tech-Lite™ aluminum alloy buckles reduce weight and the energy required to do your job during the course of a day. Our exclusive i-Safe™ system gives you an efficient, digital way of recording and storing information on inspections.

COMFORTABLE

Because Delta™ harnesses hold their basic shape, shoulder straps don’t rub your neck raw. Made with soft, breathable materials, the Delta™ comfort hip pad ergonomically supports your back and hips while bearing heavy loads.

THE NEW DELTA™ NO-TANGLE™ HARNESS (FRONT)

- REPEL™ WEBBING: Water-repellent to reduce attraction of mold and dirt – also has more abrasion resistance.
- LANYARD KEEPERS: Delta™-loined lanyard keepers hold your unused snap hooks and help reduce trip hazards.
- NO TANGLE DESIGN: Defining the Delta™ name, the patented triangular design creates a frame that allows the harness to fall into place when donned.
- BUILT-IN IMPACT INDICATORS: Rip-stitch indicators allow you to inspect the harness at a glance, for prior damaging impact loads.
- 420LB CAPACITY: Large capacity adds to tool carrying options and job-site flexibility.

THE NEW DELTA™ NO-TANGLE™ HARNESS (BACK)

- STAND-UP DORSAL D-RING: Patented spring-loaded design automatically makes-on-retracting field, easy and safe connections to your fall arrest system.
- PROTECTED LABELS WITH i-SAFE™: A Velcro® cover protects harness labels and holds Delta™-labelled i-Safe™ holders. This gives you an efficient way of recording and storing information on inspections.
