

## Removable Insta-Rack Platform

GREEN Removable Insta-Rack Platforms are created for specific site situations that won't allow for a permanent pedestal installation.

With no foundation required, the Removable Insta-Rack is a popular solution providing easy, flexible installations.

### Features

GREEN Removable Insta-Rack Platforms have many unique features:

- Custom designed to meet your application!
- **No foundation required**
- Flexible, easy installation
- Four-post design
- Various integration options for loading arms and pumping stations
- See also: Insta-Rack Pedestal Platforms

### Materials of Construction

Rugged construction includes:

- Steel, aluminum, and fiberglass models available (or combination)
- Aluminum units have galvanized back box sections and back uprights
- Grip-strut walking surface
- Optional aluminum safety enclosures

### Access Equipment

Various access options include:

- Self-leveling Stair gangway
- Flat Ramp or Telescopic gangways
- Standard or customized safety cages to satisfy your application needs

### Finishes

- Hot Dipped Galvanized
- Red oxide primer
- Gray enamel / Safety Yellow
- Custom finishes available

### Engineering

GREEN designs and custom-builds removable platforms that meet even the most challenging requirements.

Our engineering team has over 150 years experience collectively and utilizes state-of-the-art CAD software.

### Options

- 2-, 3-, or 4-rail safety enclosures
- Various platform heights and orientations
- Equipped with safety bridge / gangway or self-leveling safety stairs
