A NEW NAME FOR OUR PREMIUM HARNESS.

Over the coming months, the Edge Harness Series will be rebranded as the Halo Harness Series. This already premium harness option is being upgraded with a number of exciting new features, so Guardian felt it was about time to upgrade the name as well!

**Stay tuned for more
feature announcements in the
coming months!**

HALO SRLS

YELLOW JACKET SRLS
ARE NOW

VELOCITY SRLS

DAYTONA BIG BLOCK SRLS
ARE NOW

**DIABLO
BIG BLOCK SRLS**

With the release of the ANSI Z359.14, the SRL-LE was introduced, which are SRLs rated for use in Leading Edge (LE) applications. Because the Edge name could potentially result in confusion in regards to permitted use, we are now rebranding our premium SRL product line to the Halo Series.

At the same time as this transition, Guardian is also consolidating some of our standalone SRL options, specifically the Yellow Jacket and Daytona, into our popular Velocity and Diablo brands in order to make SRL selection even simpler.

Aside from the new branding and labeling, the design, functionality, and part numbers for all affected SRLs will be staying exactly the same!

DIABLO SELF-RETRACTING LIFELINES

The Diablo Self-Retracting Lifeline (SRL) is supremely lightweight and durable. It is available with steel or aluminum snap hooks or rebar hooks, and can be purchased on its own or in a kit of two, which allows it to transform into a double unit.

The Diablo SRL includes a carabiner, and the Diablo Double SRL Kit includes a carabiner and connector bracket. When used in combination with a compatible anchorage connector and full-body harness, the Diablo SRL has a capacity range of 130 – 420 lbs.
